LEADERSHIP

JANUARY 2018

Historic 1st: IDSA spoke on our priorities before WHO Executive Board:
- TB response
- Pandemic preparedness
- R&D needs

ADVOCACY

FEBRUARY-MARCH 2018

Global health activities advocacy efforts:
- Stressed global AMR funding at annual IDSA-led Stakeholder Forum on Antimicrobial Resistance
- Secured increased global TB funding
- Protected NIH’s Fogarty International Center from elimination
- Sustained funding for global HIV, global health security
- Co-organized CROI physician and scientist letter on evidence-based U.S. global HIV response
- Raised awareness at Congressional briefing on PEPFAR & global health security
- Advocated for global health funding during IDSA Board advocacy day

VISION

APRIL 2018 AND BEYOND

Global health efforts key to future strategy:
- Educate policymakers before September 2018 UN High Level Meeting on TB:
  - IDSA letter to US UN Ambassador
  - Physician & researcher sign-on letter with American Thoracic Society, American Society of Tropical Medicine and Hygiene and Treatment Action Group
- Secure continued global health security funding
- Maintain evidence-based, all-of-government approach to PEPFAR reauthorization
