Advance IDSA’s role as a preeminent source of information and knowledge

Champion the essential value of the ID physician in improving health outcomes

Position IDSA as a leader in the nation’s efforts to bring COVID-19 to a close and successfully prepare for and respond to future pandemics

Expand IDSA’s impact in advancing quality patient care, driving research and promoting public health

2020-2024 STRATEGIC PLAN

STRATEGIC PRIORITIES

Advance IDSA’s role as a preeminent source of information and knowledge

Champion the essential value of the ID physician in improving health outcomes

Expand IDSA’s impact in advancing quality patient care, driving research and promoting public health

Position IDSA as a leader in the nation’s efforts to bring COVID-19 to a close and successfully prepare for and respond to future pandemics

MISSION STATEMENT

To improve the health of individuals, communities, and society by promoting excellence in patient care, education, research, public health, and prevention relating to infectious diseases.

VALUES

- Leadership
- Excellence
- Diversity
- Collaboration
- Innovation

STRATEGIC INITIATIVES

RUN
Continuous quality improvements that drive the success of core Society operations, programs and services.

GROW
Targeted opportunities, to expand the Society’s reach and impact.

TRANSFORM
Investment in new areas that will yield significant return on investment or mission and position the Society for future success.

Optimize the development, dissemination and adoption of timely and relevant ID guidance and guidelines to improve the outcomes of clinical care.

Quantify, communicate and advocate for the value of ID physicians to increase professional fulfillment and compensation.

Facilitate the growth and development of the ID workforce to meet emerging scientific, clinical, and leadership needs.

Develop and position a new tool to serve as the leading US benchmark to measure and drive national progress on AMR.
